

Christmas Finery In Place

Volunteer businessmen and employees are pictured during the installation of Christmas decorations Sunday afternoon, some on ladders, wiring them to cables while others prepare them on the ground below. Although its designers probably never envisioned its use in this manner, the big Michigan unit

A large contingent of Sumner business men and employees ushered in the Christmas season officially Sunday with installation of Christmas decorations in the business district.

Because a larger number of volunteers than usual appeared to help with installation, the decorations went up in record time Sunday. By 3:15 p.m. Sunday afternoon, the decorating job was completed along First St. and decorating along the side streets was finished shortly thereafter.

Sumner Commercial Club president Lyle Zimmerman and Secretary Tom Masterpole, who asked for volunteers wished to extend their thanks to all who turned out to help install decorations Sunday.

Particularly they wanted to express their appreciation for the numerous pieces of equipment that helped speed the installation project. This equipment was supplied by B & G Building Mart, the United Telephone Co., Sumner Municipal Light Plant, Niemann

at right, supplied by Niemann Const. Co. and operated by company employee Lyle Yungtum, became a portable elevator, raising workmen and decorations, to the cables, greatly expediting the installation process. Numerous other pieces of equipment also helped speed up the work.

Construction Co., DeHaven & Kroeger and Haase Poultry Service.

The decorations along the main street are much the same as in the past, but side streets in the business district have also been decorated this year, with lighted "C" scrolls and bells.

GO CAVE MAN STYLE

With a change of season, many Iowans aren't content to follow the traditional methods of fishing and hunting. Since the spearing and bow and arrow season was lengthened and all legal fishing areas made available to the spearman and archer in the 1959 legislature, many more Iowans will be taking advantage of this prehistoric form of fishing and rough fish. Now open the year around from sunrise to sunset, carp, buffalo, quillback, gar and dogfish may be taken. Interested sports-

men should be aware of the limitation placed on enclosures though—the law states that it shall be unlawful to spear from within an enclosure of the type that materially hides the fisherman from view. This has been interpreted by the Department to include shanties and canvas covers. You must be in the open so don't forget the "longies."

SQUIRRELS

The three daughters of the Ray Martinson's of Williamsburg have

two pet squirrels that are now eight months old. The squirrels came into the girl's possession eight months ago when they were rescued from their nest in a tree that had been cut down. The squirrel's favorite food is prunes, seed and all.
