

REMEMBER WAY BACK WHEN

Ten Years Ago

Gazette, April 27, 1922
The Memorial day services this year will be in charge of the Thomas E. Woods Post of the American Legion.

The first Community party to follow Lent was held last Thursday evening at the opera house. There was a large attendance.

The members of the Cass-Parker-Rachford company have practically all arrived in Sumner and rehearsals are beginning in real earnest.

The Summer band has been inactive during the winter months, but on Monday evening of this week a rehearsal was held.

The purpose of preparing for Memorial day. The proposal made is that the women raise the money needed to finance the band and various means will be found for raising the funds.

Harry Strumpell, Lyle Winks and Albert Zierth are members of the Box Car Fraternity. This does not imply that they have joined the ranks of Weary Willies who are traveling over the country.

But these lads journeyed to Waterloo last Friday and were initiated into the mysteries of the 40 and 8-ers, an organization open to the members of the American Legion only.

Winter continues to "linger in the lap of spring" and during the past week there has been little springlike weather.

The unusual amount of rainfall has let us to a certain extent and practically all of the seeding has been done.

Ross Wall was host Tuesday evening to a group of his young friends in honor of his twelfth birthday.

The evening was spent pleasantly and refreshments were served. The youthful host was recipient of many nice gifts.

A salesman for a radio receiving concern was in Sumner Saturday with a machine for demonstration purposes.

The machine was set up in the Masonic club rooms but whether it was due to conditions in the air, or conditions in the machine, the demonstration was far from being successful.

It is the spring clean up time and in spite of the backwardness of the spring, people are generally disposing of the rubbish about their places and the ladies are beginning to wear the worried look incident to house cleaning.

Canned foods have been frequently used for currency within the last year, according to newspaper reports.

Not long ago, papers in various sections of the country announced admission to their local movies could be paid with canned foods instead of money.

The foods were to be used in "welfare baskets," and children everywhere flocked to the movies with their hard-earned can of corn or tomatoes or whatever they could earn or beg from the home pantry.

A minister in Chicago announced that he would marry couples for canned foods, instead of the usual fee, providing that food wasn't spinach—he didn't like spinach.

If this use of canned foods for currency continues, we may expect to be asked to make change for a can of beans, instead of for a dime, and how inconvenient it would be to go to the bank to deposit our savings in cans instead of currency!

There is a very real gold fineness in this currency, however, and that is the nutritive value of the food which remains standard, unlike the gold in currency which fluctuates in price.

The 1931 dollar may have been worth only about 60 cents of the 1929 dollar but the nutritive value of canned food contains the same wealth of nutrition year in and year out.
