After 55 Years

Following is the history of the Union Church. The 50th anniversary is being observed this week. When the beginning of this Union church was, no one can tell with exactitude. We may say it began in New York State, Pennsylvania, Connecticut, Massachusetts or Canada, for from these distant regions came the stalwart characters of purpose that grouped together in the schoolhouse for worship from time to time; and have such preaching services as could be procured. Such services served the inadequate need until the winter of 1887, representatives of various denominations were led by the thought given by Thomas McCauley, "A people that takes no pride in the noble achievements of remote ancestors, will never achieve anything worthy to be remembered by their descendants."

pressure. This was a very interesting phase of science. A test was given over the unit which revealed that they had mastered most of the material, even the "Hydrogen Paradox." The first month of school has been completed and it seems but a few days since we started. It will only be a short time until we will be saying that there is only one month left. The Juniors are busy working on the Junior Play which will be presented on Friday evening, October 22. The play that they are producing is entitled "Keep Off The Grass." It will be a paying evening if you reserve October 22 to see this production. Many of our students and teachers took advantage of the kind invitation of the Oelwein Public School to be present at the dedication of the Oelwein Stadium. It is a fine structure and we hope that it will afford them many pleasant hours of entertainment. In the very near future we hope to have our basketball schedule completed and ready for play. All efforts are being made to get a fine schedule for fall and winter. During the past week the seventh and eighth grade rooms became factories. The arms of the students were the machines turning out a product for market in the shape of legible writing. Each student was set up according to instructions, and all pupils tried to acquire a smoothly running machine that would turn out an attractive product. The papers that passed inspection were "put on the market," that is, put on display in Miss Killerman's room. In grades three and four, penmanship honors for the first four weeks of school, go to Clara Coczek, Delma Miller, Betty Martin, Violet Vargason, Lorraine Rohrig, Georgia Belle Schabacker, and Phyllis Reed. Friday the pupils in grade five and six made plans for a chart called, "Good Writing Position." Every fifth star is to be a gold star. When a gold star is won the name of the owner of the gold star will appear on the Honor Roll. When a name is retained on the honor roll for a month the pupil has the distinction of being a helper during penmanship class. The Third Grade Geography class has completed the unit of study dealing with the Eskimos. They are now working on illustrative Eskimo booklets. The Third Grade has made charts showing the three primary colors. This was done during their art period on Friday.
